DESCRIPTION OF SOME ADMINISTRATIVE RESPONSIBILITIES AND LEADERSHIP EXPERIENCE AT CURRENT ORGANIZATION

Since the promotion to my current role as an **Associate Vice President of Health Support Services**, San Ysidro Health, I oversee the following departments: Research and Health Promotion; HIV and LGBTQ+ Services, Mobile Health Services/Mobile Clinics; School-Based Clinics and Nutrition-WIC services.

1. Organization's level leadership activities, representation on behalf SYH and other contributions
 - A. Participation on several events representing San Ysidro Health (English and Spanish) and the All of Us Research Program. Most of these presentations (local and national) have been with the purpose to inform our community about the importance of research - always with the emphasis in the ethical consideration to conduct research in the clinical settings with vulnerable populations (NHCOA, NAHH, UNIDOS, US Families, All of Us Steering Committee, etc).
2. Program implementation including the development of the Department's Strategic Plan (in alignment to the organizational strategic goals) and establishment of short and long-term goals and objectives of the Department's programmatic work and ensuring they are up-to-date with current public health practice. Development and implementation of policies and procedures related to the department's operations and integration within organization's infrastructure. This is also applicable for all departments in my division.
 - A. Research Projects/Programs in the Research and HIV departments;
 - B. Health Education Programs for Adults and Children (Health Promotion, Mobile Health Services);
 - C. Workforce development activities (All departments). Including the process for the authorization of research projects and coordinate the activities of the Ad-Hoc IRB Committee for the Protection of Human Subjects participating in Research at any of the facilities of the organization.
3. **Personnel Management.** I am responsible of the review and development of standards of performance with our department's leadership team, program start up, hiring and training of program managers and oversight of Program Managers and Program Supervisors.
4. **Administrative:** preparation of the departmental annual budgets which reflects depts. expenditures and oversee/monitor programs' expenses with the Directors and managers. I am responsible for the overall grant management, including attention to budgets and personnel; program/projects' report generation & submission; the recruitment, hiring, and supervision of Dept staff; and the facilitation of program integration across organization's sites.
5. **Grant writing.** Directly involved in the development of new grant proposals for research projects of my departments, such as, All of Us Research Program (NIH), or in collaboration with SDS/UCSD e.g., e-LUNA; and non-research programs, such as, CMSS-Health Education funded by Kaiser Permanente in collaboration with the Grants department. Also, directly involved in program development process, including literature reviews & needs assessments (which requires data analysis using data from i2i, RedCap, NextGen reports), and program evaluation.
6. **Other Research activities.** Responsible for establishing and maintaining positive and informative relationships with appropriate local medical, civic, governmental, social service, and health promotion community groups. For example, I have participated as a speaker in several conferences, workshops, panels, at the national and local level – e.g., NIH, UNIDOS US, NAHH, NHMA, Adelante Promotoras, COBBH, MANA, MAPBA.
