Job Opening:
Clinical Program Manager
Deadline: TBD

UCSD Bridge to Recovery is funded through the County of San Diego Prevention, Education and Early Intervention (PEI) initiative as part of the Proposition 63 Mental Health Services Act. The Program is administered through the UCSD Department of Psychiatry Outpatient Psychiatric Services. The program operates out of the Health and Human Services Complex adjacent to the San Diego County Psychiatric Hospital (SDCPH). Services include alcohol and other drug screening, brief intervention, referral and treatment services (SBIRT), and a 90 day case management program to those with co-occurring substance abuse and other mental disorders. Services are provided at SDCPH’s Emergency Psychiatric Unit and two inpatient units, the Jane Westin Wellness and Recovery Center, the Mary & Gary West Senior Wellness Center, Driving under the Influence (DUI) treatment programs, and the Bridge to Recovery (BTR) offices. Services are provided by Masters level clinicians and AOD peer specialists.

DESCRIPTION OF POSITION:
Under direction of the Director and Assistant Director, the incumbent serves as Program Manager and supervisor for the UCSD Bridge to Recovery Program. Duties include day to day management of Masters level clinicians and AOD peer specialists; coordination and scheduling of staff activities; serving as liaison among County staff and Program staff to assure efficient and effective delivery of services; providing daily consultation and supervision to staff; overseeing development and maintenance of linkages with Alcohol and other Drug outpatient services, countywide social services and Mental Health services; assisting in recruitment and hiring of staff and completing performance evaluations; developing and implementing in-service training for staff. The incumbent also conducts psychodiagnostic assessments, specialized assessment of clients with co-occurring substance abuse and other mental disorders and provides crisis intervention, brief treatment, and case management services.

PRIMARY REQUIREMENTS:
- A Master's Degree from an accredited School of Social Work and possession of a clinical social worker license issued by the California Board of Behavioral Science Examiners; or an equivalent combination of education and experience.
- Minimum of three years of experience post-Master's
- Minimum of three years of clinical experience with clients with co-occurring substance abuse and other mental disorders.
- Minimum of two years’ experience in management of social work (or related) program which includes counseling and case management.
- Must be willing and able to work at an acute inpatient site.
